THE FALCON . . . Heralding a new "breakthrough" in automotive design, the Ford Falcon—shown here with three views of the Fordor model—is all new from the ground up. Functionally styled, the Falcon has a full length sculptured side panel that adds grace to its lines and provides greater strength for doors and side panels. The Falcon's all-new 90-horsepower six-cylinder engine is designed to give up to 50 per cent better gasoline mileage than standard cars.

Chamber Manager Named to National Chamber Board

President Canham of the Chamber of Commerce of the United States announced that he has appointed Dick Fitzgerald, manager of the Torrance Chamber of Commerce, to the advisory committee to the local chamber of commerce service department of the National Chamber.

Dwight Havens, manager of the National Chamber's service department said in Washington, D. C. that the committee consists of 18 Chamber managers from throughout the country plus two directors of the National Chamber, Louis B. Lundborg, vice president of the Bana kof America, and Edgar L. Sessen, M. D. of St. Joseph's Hospital in Hazelton, Penn. Havens said the committee is being formed so that the National Chamber can most effectively serve the over 400 local chambers.

Fitzgerald is the only California Chamber Manager appointed and joins Roger B. McGinnis of Boise, Idaho, and Eugene Crumb of Longview, Wash. as the only representa-

tives from the western United States. The group will meet in Washington, D. C., on Jan. 27 and 28 as guests of the U. S. Chamber.

Torrance Chamber President, J. H. Paget, said his group was tremendously proud of the appointment and pointed out that the youthful Chamber executive was first recently re-appointed to the five man editorial staff of the "Journal", the publication of the American Chamber of Commerce Executives. Fitzgerald is currently serving his third year as a Director of the California Assn. of Chamber of Commerce managers.
